How to find the Total Publications, No. of Journals, H-Index and Citations for External Reviewers

This document shows you how to use Scopus for filling the last four columns for external reviewers in the in the Faculty Promotion System as shown in the Figure below. These columns include

1. Total Publications.
2. No. Of Journal Publications
3. h-index
4. Citations

Comments	Total Publications	No. of Journal Publications	H-index	Citations
NA	211	0	32	0
Very Active in Applied Heat	358	217	37	0
NA	130	89	10	0

Using Scopus (Only information from Scopus system is accepted)

URL: http://www.scopus.com/search/form.url?display=authorLookup

Example: External Reviewer

Khaled, Hussein, Cairo University, Department of Medical Oncology, Cairo, Egypt

Khaled

Author Initials or First Name...   e.g. J.L.   🔍

☐ Show exact matches only

Affiliation...   e.g. University of Toronto...

ⓘ ORCID ID... e.g. 0000-0002-11 8-3360   🔍

Limit to:

Subject Areas
☑ Life Sciences   ☑ Physical Sciences
☑ Health Sciences   ☑ Social Sciences & Humanities
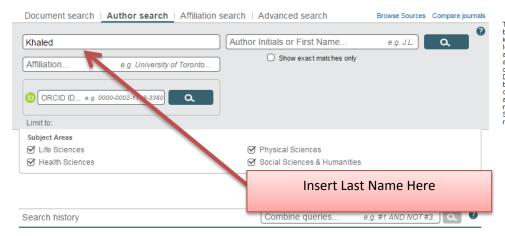

Insert Last Name Here

To determine which author names should be grouped together under a single identifier number, the Scopus Author Identifier uses an algorithm that matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. About Scopus Author Identifier

Search history   Combine queries...   e.g. #1 AND NOT #3.
