How to find the Total Publications, No. of Journals and the h-Index for External Reviewers

This document shows you how to use Scopus for filling the last three columns for external reviewers in the in the Faculty Promotion System as shown in the Figure below. These columns include

1. Total Publications.
2. No. Of Journal Publications
3. h-index

Comments	Total Publications	No. of Journal Publications	h-index
	0	0	0
	0	0	0
	0	0	0

Using Scopus (Only information from Scopus system is accepted)

URL: http://www.scopus.com/home.url

Example: External Reviewer

Professor Raj Mittra, Electrical Engineering Department, Pennsylvania State University

Scopus - Author search results

Make Author Selection

Author Last Name: Mittra
E.g., smith

Initials or First Name: R.
E.g., j.l.
☐ Show exact matches only

Affiliation:
E.g., university of toronto

Total Publications is : 894

To determine which author names should be grouped together under a single identifier number, the matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same auth. By default, only details pages matched to more than one document in Scopus are shown in search results. About Scopus Author Identifier
